DESCRIPTION	A streamlined setup that covers the basics of VJing, IMAG, and live recording, perfect for smaller events or those on a tighter budget.	Enhanced visuals, dynamic IMAG, and professional live recording for clients who want a polished, multi-angle production that stands out.	A full-scale production package with advanced VJing, multi-camera IMAG, and high-quality live recording designed for festivals, branded events, or immersive experiences.
INCLUDES	VJing: Plug-and-play visuals synced to music. IMAG: One GoPro feed integrated into the VJ visuals for simple image magnification. Live Recording: Single-camera recording with clean audio synced from the DJ mixer, delivered as raw footage.	VJing: Multi-source visuals, layered with IMAG. IMAG: Two-camera feeds (e.g., GoPro and a secondary camera for crowd shots or close-ups). Live Recording: Two-camera setup with basic post-production editing, delivered as a full event video or an add-on option to separate DJ sets (+\$500).	VJing: Custom-designed visuals, audio-reactive elements, and branding integrated into the event. IMAG: Multi-camera feeds (3+ cameras) with live dynamic switching. Live Recording: Multi-camera setup with full post-production editing, including individual DJ sets with custom branding, color grading, and delivery optimized for YouTube (with SEO and timestamping).
IDEAL FOR	Clients looking for essential coverage and visuals with minimal post-production.	Medium to large events that require dynamic coverage and polished results.	High-profile events that need premium visuals and professional-grade recording.
